Chapter 1

Login Page

When you visit the system at <https://aobs.ku.ac.ke/>, you are directed to the login page.

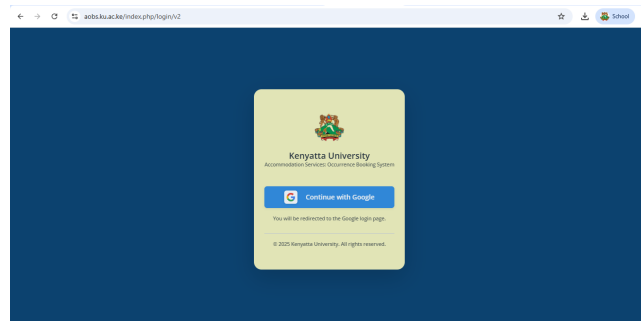

Figure 1.1: System Login Page (Google Sign-In Only)

Description

The system uses **Google Authentication** for login.

- Users must click the **Login with Google** button.
- The system will redirect them to their Google account for authentication.
- After successful verification, users are redirected to the **Dashboard**.

Roles

- **Administrators** log in via their institutional Google accounts.
- **Staff/Users** log in with their institutional Google accounts.

Security Features

- Password management is handled by **Google** (the system does not store user passwords).
- Only authorized Google accounts are allowed access.
- Failed or unauthorized attempts are logged for auditing.

Chapter 2

System Navigation

After logging in successfully, users are directed to their respective **Dashboard**. From the dashboard, all system features are accessed using the left-side **Navigation Menu**.

Navigation for Users with access to entire system

Administrators, Coordinators, Zonal Officers, Directors, Managers, and all other users except Hostel Attendants and Housekeepers will see the following menu items:

- **Dashboard** – Overview of system activity.
- **User** – Manage system users.
- **Occurrence** – Record and review occurrences.
- **Zones** – Manage geographical zones.
- **Hostels** – Manage hostel details.
- **Reports** – Access different report types:
 - All Reports
 - Add Report
 - Zonal Reports
 - Administrator/Coordinator Reports
- **Student Statistics** – View student-related statistics.
- **Escalation Matrix** – Manage escalation contacts and workflow.
- **Escalations** – Track escalated cases.
- **Handover/Takeover** – Manage shift changes.

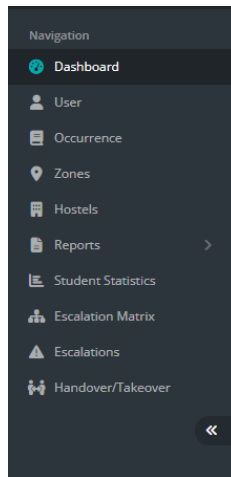

Figure 2.1: Navigation Menu for Administrators and General Users

Navigation for Hostel Attendants and Housekeepers

Attendants and Housekeepers have a simplified menu with only the relevant features:

- **Dashboard** – Personalized dashboard.
- **Occurrence** – Record daily occurrences.
- **Student Statistics** – View student-related statistics.
- **Handover/Takeover** – Manage daily shift transitions.

How to Use the Navigation Menu

1. Move your cursor to the left sidebar.
2. Click a menu item to open the corresponding page.
3. Sub-menus (e.g., Reports) expand when clicked.
4. Use the back button or dashboard link to return to the main page.

Chapter 3

User Management

The User module allows authorized staff to view, create, update, and manage system users. Only Administrators, Coordinators, Managers, and Directors have permission to access this module.

User List

When you click on the **User** menu item, the system shows a list of all registered users. The table contains the following columns:

- **#** – Serial number.
- **Name** – Full name of the user.
- **Email** – Email address used for Google login.
- **Phone** – Contact phone number (if provided).
- **Role** – User role, displayed as a colored badge (e.g., Administrator, Manager, Director).
- **Created At** – Date and time when the account was created.
- **Actions** – Buttons to **Edit** or **Delete** the user.

Creating a New User

Click the **New User** button above the user table to open the user creation form.

The form contains the following fields:

- **Name** – Full name of the new user.
- **Email** – Institutional Google email address.

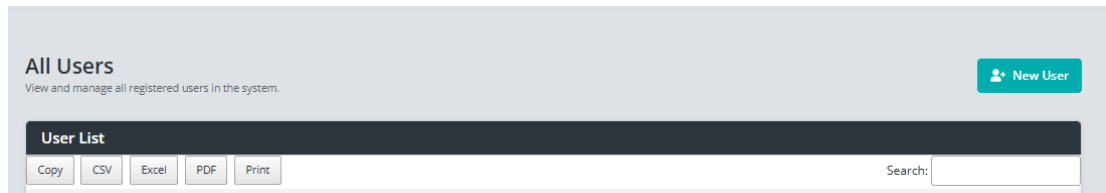

Figure 3.1: User List with Actions

- **Phone** – Contact number (optional).
- **Role** – Role of the user (Administrator, Coordinator, Zonal Officer, Director, Manager, House Keeper, Hostel Attendant, or Other).
- **Other Role** – If “Other” is selected, specify the role manually.

Once all details are filled, click **Create User** to register the account. Success or error messages are displayed at the top of the form.

Figure 3.2: New User Creation Form

Editing a User

To update a user, click the **Edit** button in the User List. This opens the Edit User form, where you can:

- Modify **Name**, **Email**, or **Phone**.

- Change the **Role** (only visible for Managers or Directors).
- Save changes by clicking the **Update User** button.

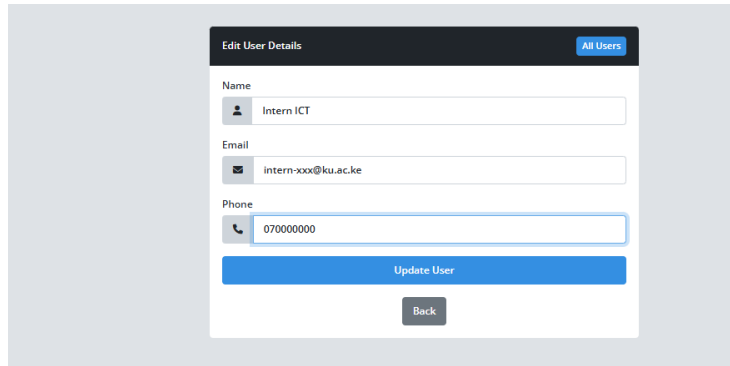

Figure 3.3: Editing User Details

Deleting a User

The **Delete** button in the Actions column allows removal of a user.

- A confirmation prompt appears before deletion.
- Once deleted, the user account cannot log in again.
- However, their past records remain in reports for accountability.

Notes

- User accounts must have a valid institutional Google email.
- Roles determine the system features available to each user.
- Administrators are responsible for maintaining correct user roles.

Chapter 4

Zone Management

This module allows authorized users to create, view, and manage zones.

Zones List

Click the **Zones** menu item to open the list of registered zones. The table includes the following columns:

- **#** – Serial number.
- **Zone Name** – The name of the zone.
- **Actions** – Buttons to edit (and optionally delete) the zone.

If no zones exist, the system displays a “No zones found” message.

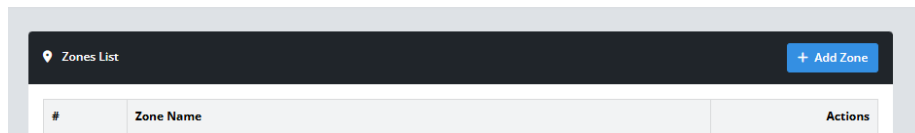

Figure 4.1: Zones List with Actions

Adding a New Zone

Click the **Add Zone** button to create a new zone. This opens a form requiring the following field:

- **Zone Name** – The name of the new zone (required).

At the bottom of the form:

- Click **Save Zone** to create the record.
- Click **Cancel** to return to the list without saving.

Validation ensures that the name field is not left blank. If successful, a success message is displayed.

 A screenshot of a web form titled "Add New Zone". The form has a dark header bar with a location pin icon and the title. Below the header, there is a text input field labeled "Zone Name *" with a red asterisk indicating it is required. The input field contains the placeholder text "Enter zone name". At the bottom of the form, there are two buttons: a "Cancel" button with a left arrow icon and a "Save Zone" button with a save icon.

Figure 4.2: Add New Zone Form

Editing a Zone

To update an existing zone:

1. From the Zones List, click the **Edit** button in the Actions column.
2. The Edit Zone form appears with the current name pre-filled.
3. Modify the **Zone Name** as required.
4. Click **Update Zone** to save changes or **Cancel** to discard.

If validation fails, error messages appear above the form.

 A screenshot of a web form titled "Edit Zone". The form has a dark header bar with a pencil icon and the title. In the top right corner of the header, there is a "Back" button with a left arrow icon. Below the header, there is a text input field labeled "Zone Name *" with a red asterisk indicating it is required. The input field contains the text "Nyayo". At the bottom of the form, there are two buttons: a teal "Update Zone" button with a save icon and a grey "Cancel" button.

Figure 4.3: Edit Zone Form

Notes

- Zones are important for grouping hostels and assigning responsibilities to zonal officers.
- Deletion of zones may be disabled to protect historical records.

Chapter 5

Hostel Management

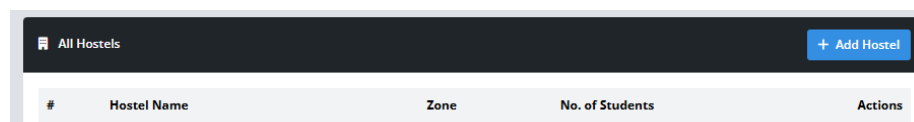

The Hostel module allows Administrators and Coordinators to create, edit, and manage hostels within different zones. Each hostel is associated with a zone and has a defined student capacity.

Hostels List

Click the **Hostels** menu item to view all registered hostels. The table shows:

- **#** – Serial number.
- **Hostel Name** – The name of the hostel.
- **Zone** – The zone to which the hostel belongs.
- **No. of Students** – The total capacity (or current number of students).
- **Actions** – Edit (and optionally delete) buttons.

If no hostels are available, the system displays a message: “No hostels found.”

#	Hostel Name	Zone	No. of Students	Actions
---	-------------	------	-----------------	---------

Figure 5.1: Hostels List with Actions

Adding a New Hostel

Click the **Add Hostel** button to open the form. The following fields are required:

- **Hostel Name** – Enter the hostel’s name.
- **Zone** – Select the zone to which the hostel belongs.
- **Number of Students (Capacity)** – Define the hostel’s capacity.

At the bottom:

- Click **Save Hostel** to create the hostel.
- Click **Cancel** to return to the hostels list without saving.

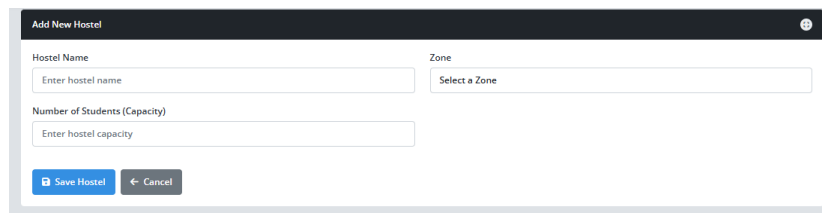

Figure 5.2: Add New Hostel Form

Editing a Hostel

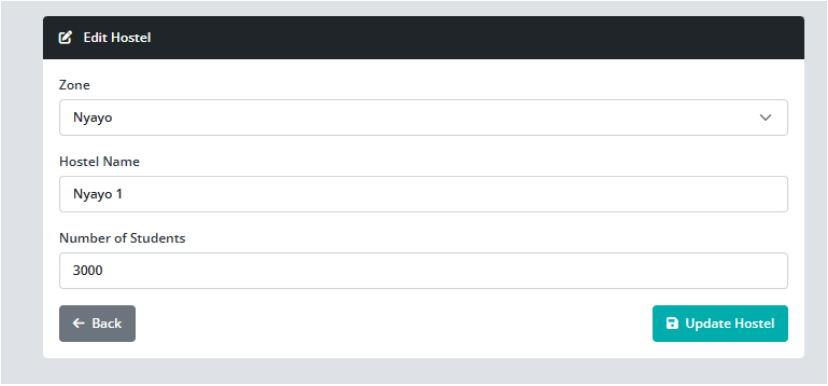

To update a hostel:

1. In the Hostels List, click the **Edit** button from the Actions column.
2. The Edit Hostel form opens with the details pre-filled.
3. Update the fields (Zone, Hostel Name, Capacity).
4. Click **Update Hostel** to save changes, or **Back / Cancel** to exit without saving.

Validation messages are displayed if required fields are left empty.

Notes

- Every hostel must belong to a zone.
- Capacity is a mandatory field to ensure proper allocation of students.
- Deletion of hostels may be restricted to protect historical allocation data.

The image shows a web form titled "Edit Hostel" with a dark header bar. The form contains three input fields: a dropdown menu for "Zone" with "Nyayo" selected, a text field for "Hostel Name" with "Nyayo 1" entered, and a text field for "Number of Students" with "3000" entered. At the bottom, there are two buttons: a grey "← Back" button on the left and a teal "Update Hostel" button on the right.

Figure 5.3: Edit Hostel Form

Chapter 6

Occurrence Management

The Occurrence module is used to report, track, escalate, and resolve incidents happening in hostels. Occurrences go through multiple steps: reporting, action, escalation, and resolution.

All Occurrences

Click **Occurrences** on the navigation menu to see a full list of all reported occurrences. The table displays:

- **Tracking Number** – A unique reference for the occurrence.
- **User** – The staff member who reported.
- **Shift** – Day or Night.
- **Hostel** – The hostel where the incident occurred.
- **Date, Time of Reporting, Time of Occurrence.**
- **Occurrence Type, Nature, Action Taken, Resolution, Resolved.**
- **Files** – Any supporting attachments.
- **Stakeholder Inputs** – Comments/inputs from hostel attendants, zonal officers, administrators, managers, and directors.

From this page, users can:

- **Add a new occurrence.**
- **Escalate an occurrence.**
- (Higher roles) **Edit or delete an occurrence.**
- **Add inputs/comments.**

- **Occurrence Details** – Reporter, shift, hostel, date/time, type, resolution status.
- **Escalations** – Escalation history.
- **Resolution** – Resolution records.
- **Stakeholder Inputs** – Comments from staff across different roles.
- **Files** – Uploaded supporting files.

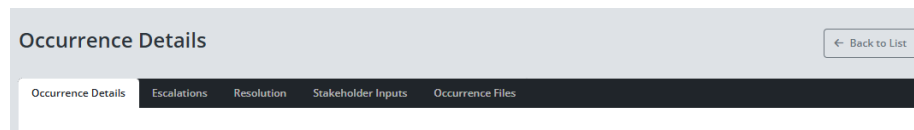

Figure 6.3: Occurrence Details Tabs

Escalations and Inputs

Every occurrence can be escalated to higher roles for further action. Users can also add inputs (comments or observations). Inputs are tagged with the user's role and name.

Notes

- Only authenticated users can report occurrences.
- Role determines access: attendants and housekeepers mainly report, while zonal officers, administrators, managers, and directors escalate, update, or close reports.
- Attachments can include documents, images, or PDFs.

Chapter 7

Daily Reports

The Daily Reports module allows hostel staff and zonal officers to submit and review daily activity reports. Managers and Directors can also add their inputs to each report.

All Reports

Click **Reports** on the navigation menu to see all submitted reports. The reports table shows the following information:

- **Date & Time** – When the report was submitted.
- **Report** – The detailed text entered by the user.
- **Shift** – Day or Night.
- **Zone** – The zone associated with the report (for zonal officers).
- **System User** – The staff member who submitted the report.
- **Manager Input** – Notes or comments from the Manager (if any).
- **Director Input** – Notes or comments from the Director (if any).

If you are a **Manager** or **Director**, you will see action buttons next to each report, allowing you to:

- Add your input (via the comment icon).
- (Optional) Edit or delete a report (if permissions allow).

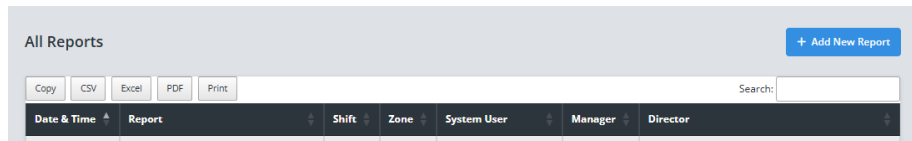

Figure 7.1: All Daily Reports List

Adding a New Report

To submit a report, click the **Add New Report** button at the top-right of the Reports page. This opens the Daily Report Form.

1. **Zone** – Required for Zonal Officers. Select from the dropdown list.
2. **Date & Time** – Specify when the report was made.
3. **Shift** – Day or Night (auto-selected by the system).
4. **Report** – Enter the full details of the daily report in the textarea provided.

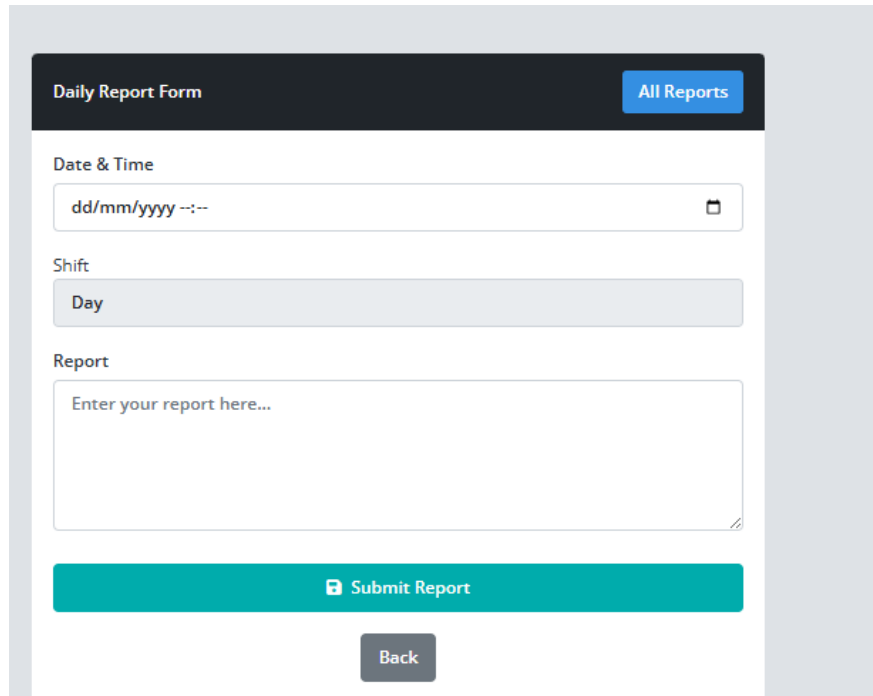

After completing the form, click **Submit Report**. The system will save your entry and display it in the reports list.

Adding Inputs (Manager & Director)

Managers and Directors can add comments or approvals to submitted reports. Click the **Add Input** button (speech bubble icon) next to the relevant report. A modal will appear where you can type and save your input.

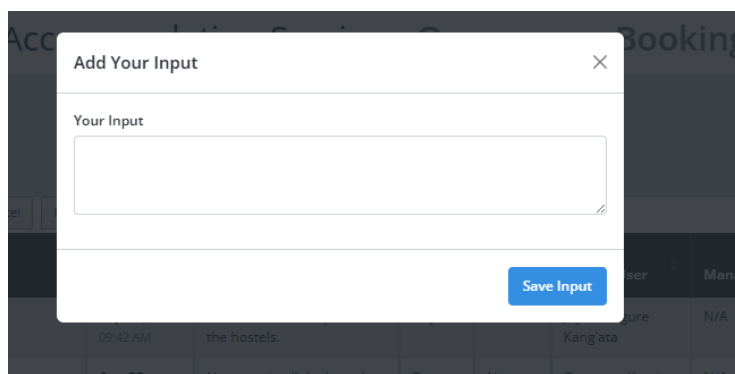

Notes

- Only authorized users can submit daily reports.
- Managers and Directors have additional privileges to comment on reports.
- Reports are permanently stored and can be used for accountability and auditing.

The image shows a web form titled "Daily Report Form" with a dark header bar. In the top right corner of the header is a blue button labeled "All Reports". Below the header, the form is organized into sections. The "Date & Time" section contains a date input field with the placeholder "dd/mm/yyyy --:--" and a calendar icon. The "Shift" section features a dropdown menu currently showing "Day". The "Report" section is a large text area with the placeholder "Enter your report here...". At the bottom of the form is a prominent teal button labeled "Submit Report" with a document icon, and below that is a smaller grey button labeled "Back".

Figure 7.2: Daily Report Submission Form

The image displays a modal dialog box titled "Add Your Input" with a close button (X) in the top right corner. Inside the modal, there is a label "Your Input" above a text input field. At the bottom right of the modal is a blue button labeled "Save Input". The background of the page is dimmed, showing a table with columns for time, location, and other details.

Figure 7.3: Add Manager/Director Input to a Report

Chapter 8

Student Attendance Statistics

This module is used to record and monitor student attendance in each hostel. It helps administrators, zonal officers, and other staff members keep accurate statistics of students present during different shifts.

Viewing Attendance Records

Click **Student Attendance Statistics** from the navigation menu to view all submitted records. The table displays the following information:

- **Reported By** – The staff member who recorded the statistics.
- **Hostel** – The hostel where attendance was taken.
- **Zone** – The zone of the hostel.
- **Date** – Date of the record.
- **Shift** – Day or Night.
- **Students Present** – The total number of students present.
- **Comments** – Any remarks or additional notes.

Adding a New Record

To add a new attendance record, click the **Add New Record** button at the top-right of the Student Attendance Statistics page. This will open the Student Statistics Form.

The form contains the following fields:

Reported By	Hostel	Zone	Date	Shift	Students Present	Comments
-------------	--------	------	------	-------	------------------	----------

Figure 8.1: Student Attendance Statistics List

1. **Hostel** – Select the hostel from the dropdown list.
2. **Date of Record** – The date when attendance is recorded.
3. **Shift** – Select Day or Night.
4. **Students Present** – Enter the total number of students present.
5. **Comments** – (Optional) Add any notes or observations.

After filling in the details, click **Save Record** to submit. The system validates the data before saving and will display any error messages if required fields are missing.

Figure 8.2: Student Attendance Statistics Form

Permissions

- **House Keepers** and **Hostel Attendants** can only view their assigned records.
- **Zonal Officers**, **Managers**, and **Directors** may view records across zones.

- Editing or deleting records is restricted and only available to authorized roles.

Notes

- Accurate reporting is important to track hostel capacity usage.

Chapter 9

Escalation Matrix

Overview

The Escalation Matrix feature allows Administrators to define departments (e.g., Health Unit, OSA, Security) and associate them with specific email addresses for escalation workflows.

Add Escalation Matrix Entry

Click on the **Add New Entry** button to open the form. Fill in the following details:

- **Department Name:** Enter the department (e.g., Health Unit, OSA, Security).
- **Email Address:** Provide the escalation contact email.

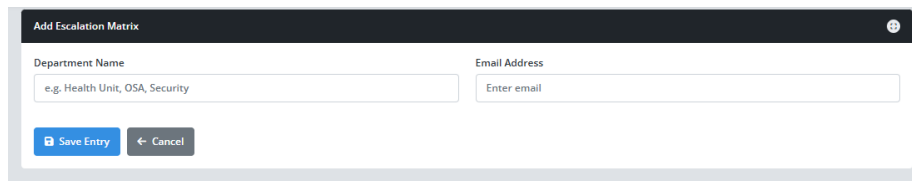

Figure 9.1: Add Escalation Matrix Form

View Escalation Matrix Entries

After adding entries, they will appear in a tabular format showing:

- Serial number

- Department
- Email address
- Date of creation

Escalation Matrix			
+ Add New Entry			
#	Department	Email	Created At

Figure 9.2: Escalation Matrix List

Chapter 10

Escalations

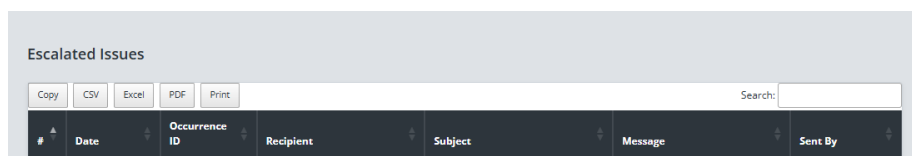

Overview

The Escalation module enables users to report and forward critical issues to higher authorities or designated departments. Administrators and authorized users can both **view escalated issues** and **send new escalations**.

Viewing Escalated Issues

The **Escalated Issues** page displays a table of all previously reported escalations. Each entry includes:

- **#**: Serial number
- **Date**: Date and time the escalation was created
- **Occurrence ID**: Reference to the related occurrence
- **Recipient**: Email of the escalation recipient
- **Subject**: Subject line of the escalation
- **Message**: The body of the escalation (truncated in the list)
- **Sent By**: The user who created the escalation (or *System*)

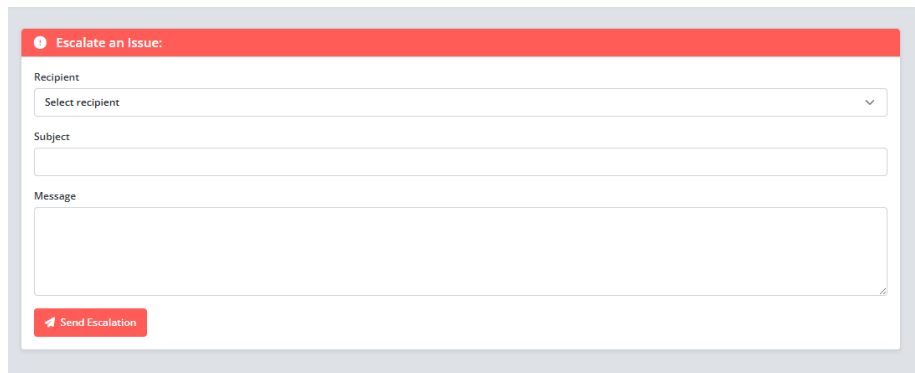

#	Date	Occurrence ID	Recipient	Subject	Message	Sent By
---	------	---------------	-----------	---------	---------	---------

Figure 10.1: Escalated Issues List

Sending a New Escalation

To create a new escalation:

1. Click the **Escalate an Issue** button from the relevant page.
2. Select a **Recipient** from the dropdown (department or individual email).
3. Enter the **Subject**.
4. Write the **Message** describing the issue in detail.
5. Click **Send Escalation**.

The screenshot shows a web form titled "Escalate an Issue:" in a red header bar. Below the header, there are three input fields: a dropdown menu for "Recipient" with the placeholder text "Select recipient", a text box for "Subject", and a larger text area for "Message". At the bottom left of the form is a red button with a white paper plane icon and the text "Send Escalation".

Figure 10.2: Escalation Form

Chapter 11

Dashboard

Overview

The Dashboard provides a quick summary of all important system data in a visual format. It consists of **widgets** (summary cards with counts) and **weekly reports** (detailed hostel and zonal statistics). Each widget is clickable, leading to the respective detailed page.

Dashboard Widgets

The top section of the dashboard contains several widgets, including:

- **Total Occurrences:** Displays the total number of all occurrences logged across hostels.
- **Unresolved Issues:** Shows the number of issues pending resolution.
- **Today's Reports:** Indicates how many daily reports were logged today.
- **Hostel Attendants/House Keepers:** Displays the total number of active attendants and keepers.
- **Hostels Covered:** Shows the number of hostels registered in the system. Clicking this expands a breakdown table of students present per hostel.
- **Daily Stats Submitted:** The number of student statistics submitted today.
- **Administrator Reports:** Total reports submitted by administrators today.
- **Zonal Officer Reports:** Total number of zonal reports submitted today. Clicking this expands a detailed breakdown per zone.

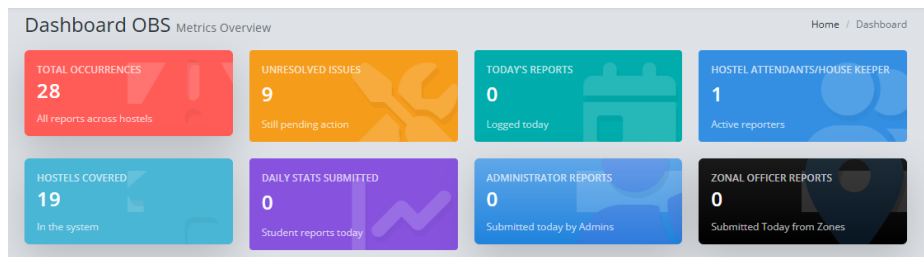

Figure 11.1: Dashboard Widgets Overview

Weekly Hostel Occupancy Report

Below the widgets, the system displays the **Weekly Hostel Occupancy Report**. This table summarizes hostel capacity, daily occupancy (both Night and Day counts), and availability. Navigation buttons allow moving to the previous or next week.

Weekly Hostel Occupancy Report (Sep 01, 2025 - Sep 07, 2025)															< Prev Week	
HOSTEL	CAP.	MON		TUE		WED		THU		FRI		SAT		SUN		AVAIL.
		N	D	N	D	N	D	N	D	N	D	N	D	N	D	

Figure 11.2: Weekly Hostel Occupancy Report

Weekly Zonal Occupancy Report

The **Weekly Zonal Occupancy Report** presents similar data, but grouped by zones instead of hostels. It shows total zone capacity, daily occupancy, and available space. Totals across all zones are displayed at the bottom of the table.

Weekly Zonal Occupancy Report (Sep 01, 2025 - Sep 07, 2025)															< Prev Week	
ZONE	CAP.	MON		TUE		WED		THU		FRI		SAT		SUN		AVAIL.
		N	D	N	D	N	D	N	D	N	D	N	D	N	D	

Figure 11.3: Weekly Zonal Occupancy Report
